CAREER OBJECTIVE

M.Tech Data Science candidate skilled in Python, SQL, and TensorFlow, Statistics with expertise in analytics and machine learning.Seeking to leverage technical expertise to deliver actionable insights and drive organizational growth.

WORK EXPERIENCE

MIS Executive & Analyst Jun 2025 - Oct 2025
Transcon IT Solutions Pvt. Ltd., Kolkata

1. Conducted market research and competitor benchmarking on AV solutions through web scraping.
2. Performed data cleaning, preprocessing, and transformation on large unstructured datasets to prepare for analysis and targeted campaigns.
3. Analyzed revenue and sales data (last FY) using Excel, identifying performance trends and ROI patterns across projects.
4. Built Monthly Sales Reports for each salesperson, aggregating KPIs (revenue, conversions, pipeline movement) to provide leadership with insights.
5. Designed and automated mass mailing datasets (Mailchimp) by cleaning and processing 15K+ contact records, improving outreach accuracy. Built MIS dashboards and reports in Excel to track sales and telecasting KPIs, enabling leadership to monitor campaign effectiveness.

Coordinator Jul 2023 - May 2025
IDFC FIRST BANK, Kolkata

• Built sales dashboards and MIS reports in Excel for East India, tracking disbursements and pipeline movement. • Developed parameter-based tracking tables (AA Aggregator, Digilocker, FTR, etc.) to assess manager performance. • Automated monthly sales MIS for 10+ managers, enhancing transparency and decision making. • Presented performance insights via MS Teams to support strategic decisions.

JIS Institute Of Advanced Studies And Research

CGPA: 7.00/10

B.Tech, 2019 - 2023
Techno India Salt Lake

CGPA: 9.14/10

Senior Secondary (XII), WBCHSE 2019
Science

Behala Sharda Vidyapith For Girls

Percentage: 83.80%

Secondary (X), WBBSE 2017
Behala Sharda Vidyapith For Girls

Percentage: 92.28%

TRAININGS / CERTIFICATIONS

IBM Data Analyst Professional Certificate
Jun 2023

Coursera, Virtual

Python
Apr 2023

GUVI, Virtual

Master Data Management For Beginners
Apr 2023

tcs ion, Virtual

Problem Through Programming In C
Jul 2021 - Oct 2021

NPTEL, Virtual

PROJECTS

Academic Project - Final Year Thesis (Ongoing)

Jul 2025 - Present

Working on sentiment analysis of Amazon product reviews to predict customer ratings using NLP and ML. Preprocessing with tokenization, stop-word removal, TF-IDF; experimenting with classification models (SVM, Logistic Regression, Neural Networks).

SKILLS

- Python
- Power BI
- Database Management System (DBMS)
- Amazon S3
- Statistics
- Machine Learning
- Matplotlib
- Natural Language Processing (NLP)
- Data Analytics
- C Programming
- NumPy
- GitHub
- Probability
- Big Data Analytics
- Tableau
- Data Science
- MS-Excel
- SQL
- Pandas
- Flask
- Problem Solving
- Deep Learning
- MongoDB

EXTRA CURRICULAR ACTIVITIES

- Cultural Head of Civilution Committee of TMSL

ADDITIONAL DETAILS

- I take a keen interest in performing classical and creative dance.
