MERN Stack Developer / React Native Developer

Profile

"A Mechanical Engineering graduate with a strong foundation in software development, specializing in the MERN stack. Experienced in building full-stack web applications and currently upskilling through professional training at J Spiders. Known for problem-solving, adaptability, and delivering real-world solutions."

EDUCATION

Elitte College of Engineering, Kolkata
Bachelor of Technology (B.Tech) – Mechanical Engineering
Graduated: June 2023 | CGPA: 8.84

Elitte Institute of Engineering & Management, Kolkata
Diploma in Mechanical Engineering
2017 – 2020 | Percentage: 74.4%

TECHNICAL SKILLS

- Programming Languages: JavaScript
- Web Development: HTML, CSS, JavaScript, React.js , Node.js , Express.js
- Database: MongoDB , MySQL
- Tool: Git , GitHub , Postman
- Other Software: MS Excel , AutoCAD

College Project

AutoNav: Sensor-Based Robot Link

- **Developed a sensor-based robot capable of automated navigation and obstacle detection.**
- **Utilized Python/C/Arduino IDE for coding the robot's control system.**
- **Integrated with ultrasonic sensors and infrared to enable real-time obstacle detection and path adjustment.**
- **Collaborated with a team of 5 members to design, assemble, and test the robot's hardware and software components.**

Recent Project

CRM Web & App Solution *(Developed at ParNets Software India Pvt. Ltd.)* *CRM Web App Link*

- **Developed a full-featured CRM platform with integrated face detection attendance and real-time stock tracking.**
- **Built using MERN stack (MongoDB, Express.js, React.js, Node.js) and React Native for mobile applications.**
- **Implemented secure authentication and role-based access control (Admin, Manager, Employee) for data protection and permission-based actions.**
- **Designed RESTful APIs for employee management, inventory control, and reporting modules.**
- **Enabled real-time synchronization between web and mobile apps for attendance and stock updates.**

MERN Blog Application Link

- **Authentication: Secure login/signup using Clerk.**
- **Frontend: Developed with React.js, Tailwind CSS, and React Router.**
- **Backend: RESTful API using Express.js.**
- **Database: MongoDB with Mongoose for schema design.**
- **Rich Text Editor: Integrated Quill.js for formatted post creation.**
- **Features: Full CRUD, commenting system, ImageKit integration for media uploads.**
- **Deployment: Frontend on Vercel, backend on Render, database on MongoDB Atlas.**

EXPERIENCE

MERN & App Developer, ParNets Software India Pvt. Ltd.
August 2025 – Present

- **Working on full-stack web and mobile app development using the MERN stack and React Native.**
- **Developing scalable RESTful APIs and interactive user interfaces.**
- **Building cross-platform mobile applications with seamless backend integration.**
- **Collaborating with teams to design, develop, and deploy production-level web and mobile solutions.**
- **Focusing on performance optimization, secure authentication, and clean UI/UX.**

Software Developer, Sikharthy Infotech, Kolkata
July 2023 – November 2023

Gained hands-on experience in software development processes, including coding.

Trainee Engineer, Mando Automotive India, Chennai
July 2020 – June 2021

- Assisted in maintaining and optimizing mechanical production systems.
- Worked with senior engineers to improve manufacturing efficiency and process flow.
- Gained exposure to shop floor operations, quality checks, and assembly line improvements.

CERTIFICATIONS

- MERN Stack Development** – J Spiders *(Ongoing)*
- Leadership Talk – Certificate of Participation** **Link**
- Participated in the motivational session with Shri Dipendra Manocha, organized by MHRD's Innovation Cell .

Extra-curricular Activities

- Organized and managed ULTRON 2022 events during college.
- Active member of the **college Programming Club**: participated in coding projects and technical seminars.

Hobbies

Playing Guitar , Reading Books , Hiking Mountains

Languages

English , Hindi , Bengali
