SUMMARY

Backend Developer with 2+ years of experience building enterprise-grade applications using NestJS, Node.js, and Express.js with a full-stack approach. Strong in modular architecture, RESTful APIs, JWT authentication, RBAC, middleware, guards, and DTO validation. Experienced with PostgreSQL, MongoDB, and Sequelize ORM, including pagination, filtering, and search. Delivered Warehouse Management and real-time chat systems using Socket.IO and Twilio, deployed via Nginx, PM2, VPS, with AWS-based file storage and UI development using React.js and Next.js.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6), TypeScript, SQL

Backend Technologies: Node.js, NestJS, Express.js, RESTful APIs, MVC & Modular Architecture

Frontend Technologies: React.js, Next.js, EJS, HTML5, CSS3, Bootstrap, Material UI (MUI), Tailwind CSS

Databases: PostgreSQL, MongoDB, MySQL, MariaDB

ORM / ODM: Sequelize, Mongoose

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC)

Tools, Cloud & Deployment: Git, GitHub, Postman, Socket.IO, Nginx, PM2, VPS Deployment, AWS (S3/File Storage, EC2, RDS, IAM)

PROFESSIONAL EXPERIENCE

Full Stack Developer – MERN

Zentelex PVT LTD, Kolkata, India | 2025 – Present

- Developed a real-time chat application using Node.js, Express, MongoDB, Socket.IO, and Twilio with JWT authentication, RBAC, file sharing, searchable chat history, typing indicators, deployed on VPS with Nginx & PM2, following MVC/modular architecture for scalability.

- Built a Warehouse Management System managing 4 warehouses using NestJS, PostgreSQL, and Sequelize, with RBAC, CRUD operations, PDF file reading, monthly stock reports, inventory tracking, deployed on VPS with Nginx & PM2 and integrated AWS S3 for secure file storage.
- Designed scalable MVC/modular architecture, relational database associations, DFDs, and operational workflows for production-ready systems.
- Implemented real-time notifications, audit logs, search/filter, export features, and optimized database queries to ensure high performance, security, and availability.

Full Stack Developer – MERN

FFACE, Kolkata, India | 2024 – 2025

- Developed an agency management system supporting 50+ users with CRUD functionality using React.js, Node.js, Express.js, MongoDB, and PostgreSQL with proper MVC architecture and real-time updates via Socket.IO.
- Integrated Sequelize ORM for relational data modeling and optimized database queries, improving performance by ~30%.
- Contributed to two Shopify eCommerce websites, handling theme customization, product management, and payment configuration, and developed a PHP-based gym website with dynamic content management and backend functionality.

Full Stack Developer (MERN) – Trainee

WebSkitters Academy, Kolkata, India | 2023 – 2024

- Developed responsive UIs and dynamic dashboards with React.js, Next.js, HTML, CSS, Bootstrap, and MUI, including converting static templates to dynamic apps.
- Built RESTful APIs, blog/admin CRUD systems using Node.js, Express.js, MongoDB, and EJS, following clean coding standards.

Senior Associate (Support Analyst)

Wipro, Kolkata, India | 2021 – 2023

- Worked as a Production Analyst in the US healthcare domain, managing large-scale datasets and resolving production issues in collaboration with cross-functional teams.
- Delivered technically efficient solutions with 95%+ quarterly performance efficiency, ensuring SLA compliance and service stability.

EDUCATION :

Master of Computer Application (MCA) | 2024 – Present

Regent Education and Research Foundation, MAKAUT

Bachelor of Science (B.Sc) | 2016 – 2019

Surendranath College, Calcutta University
