Koushik Bajpayee

Kolkata kbajpayee06@gmail.com 9564072751 portfolio koushik06

Technologies

- **Languages:** JavaScript (ES6+), PHP, Python, C
- **Frontend:** React.js, Redux Toolkit, React Router, Tailwind, Bootstrap, HTML5, CSS3
- **Backend:** Node.js, Express.js, Laravel, REST APIs, JWT Auth
- **Databases:** MongoDB (Mongoose), SQL (MySQL, PostgreSQL)
- **Cloud / DevOps:** AWS (EC2, S3), PM2, Nginx, Linux (Ubuntu)
- **Tools:** Git, GitHub, VS Code, Postman, MongoDB Compass, phpMyAdmin

Experience

Software Developer Intern *Kolkata March 2025 – Present*
Reddensoft Infotech

- Built a multi-role permission system (Admin/Author/Student) in Laravel, improving internal workflow efficiency by **30%**.
- Developed secure modules for user management, book approvals, and content handling using REST APIs and MySQL.
- Implemented middleware-based route protection, server-side validation, and hashed authentication to enhance security.
- Optimized database queries and panel load performance, reducing response time by **20%**.

RF Engineer *Kolkata Jan 2017 – Dec 2019*
Decon Telecom Solutions

- Improved signal quality by **12%** through cluster optimization and drive test analytics.
- Strengthened analytical reporting and documentation skills, directly contributing to debugging APIs and backend performance tuning.

Projects

DevTinder — Microservice Developer Networking Platform *Backend* • *Frontend*

- Built a **microservice-based MERN application**, separating frontend and backend into independent services with individual deployment pipelines.
- Improved backend performance by **18%** using MongoDB indexing, aggregation pipelines, and optimized query paths.
- Solved CORS and cookie-auth issues via custom Nginx reverse proxy + secure cookie flags during AWS deployment.
- Implemented JWT auth, protected routes, connection requests, and profile management with scalable API architecture.

Doctor Appointment Booking App — MERN *Prescripto*

- Implemented role-based modules (User/Doctor/Admin) with secure JWT auth and protected routes.
- Built real-time slot locking achieving **100% double-booking prevention**.
- Enhanced doctor discoverability by **60%** using filters for specialty, experience, fees, and availability.

Food Ordering App — React + Redux + Jest *FoodApp*

- Boosted initial load speed by **12%** using lazy loading, Shimmer UI, and optimized API fetch logic.
- Reduced re-renders by **35%** through custom hooks, memoization, and reusable component patterns.
- Achieved **85%+ test coverage** for key flows (Header, Search, Cart) using Jest + RTL.

Certifications

• *Meta React Basics* • *Meta Advanced React* • *IBM Node.js & Express* • *IBM Node.js & MongoDB*

Education

MAKAUT *B.Tech in Electronics & Communication – CGPA: 7.45* *Aug 2011 – May 2015*

- **Relevant Coursework:** SQL (Codebasics), Data Science (CampusX), PowerBI
