## PROFILE

Frontend Developer skilled in React.js and UI/UX design. Experienced in building responsive, interactive web applications and creating design prototypes in Figma. Strong focus on user experience, component reusability and problem-solving.

## SKILLS

- **Frontend development**: HTML5, CSS3, JavaScript (ES6), React.js
- **UI/UX design**: Figma, prototyping, wireframing
- **Version control**: Github
- **Styling frameworks**: TailwindCSS, Styled-Components

## PROJECTS

# Project 1: **Coffee Shop Website (React)**

**Objective**: To create a digital cafe experience with smooth browsing and easy ordering.

- Built a responsive UI with smooth navigation and carousel hero section.
- Developed an interactive cart system for a real cafe-like experience.
- Added About, Menu, and Contact sections for a complete flow.

# Project 2: **Imocomics Platform (React)**

**Objective**: To build an engaging platform where users can discover and read comics in dark mode.

- Built a dark-mode comic-reading platform for immersive experience.
- Implemented genre filters and ratings for easy discovery.
- Added a 'Read More' feature to view full comics.

# Project 3: **Chandigarh Bus Travel App (UI/UX Case Study, Figma)**

**Objective**: To design a smart bus travel app that makes commuting easier with digital payments, reminders, and chatbot support.

- Designed a bus travel app prototype with smart card integration and chatbot assistant.
- Conducted user research, wireframing, and prototyping in Figma.
- Focused on reminders and customer support for daily commuters.
